The Prize Winning Rods

All over the United States and Canada, wherever men and boys are fishing, "BRISTOL" Rods are catching more Prize Fish than all other rods combined. In the Great National Field & Stream Fishing Contest of 1914, "BRISTOL" Rods won 32 Prizes.

"BRISTOL" Rods have the quickness, the action, the strength and the reliability, not only to catch the fish—big and little—but to give the fisherman the greatest joy in the sport of fishing.

"BRISTOL" Rods are made in thirty-eight different styles, ranging from $3.50 to $25.00. They are sold by 19,000 dealers. If you cannot get the exact type of "BRISTOL" you want from your dealer, let us know and we will see that you are supplied.
